

Summary

The following is a list of the updates that Sensus has tested and approved to operate with our software running on Microsoft Windows Server.

Microsoft Windows Server 2016

Date	Title	Description	RNI Version
01/26/2018	SQL Server 2012 Service Pack 4 (KB4018073)	Service Pack 4 for SQL Server 2012 upgraded all SQL Server 2012 instances and components installed through the SQL Server setup. Service Pack 4 can upgrade all editions of SQL Server 2012 to Service Pack 4 level. For customers in need of additional installation options, please visit the Microsoft Download Center and download the Service Pack 4 SQL Server 2012. To learn more about SQL Server 2012 SP4 please visit the Microsoft Support (http://support.microsoft.com) Knowledge Base article KB 4018073.	v4.6,v4.7
10/30/2018	SQL Server 2014 Service Pack 3 (KB4022619)	Service Pack 3 for SQL Server 2014 upgraded all SQL Server 2014 instances and components installed through the SQL Server setup. Service Pack 3 can upgrade all editions of SQL Server 2014 to Service Pack 3 level. For customers in need of additional installation options, please visit the Microsoft Download Center and download the Service Pack 3 SQL Server 2014. To learn more about SQL Server 2014 SP3 please visit the Microsoft Support (http://support.microsoft.com) Knowledge Base article KB 4022619.	v4.6,v4.7
07/09/2019	Security Update for SQL Server 2014 Service Pack 2 CU (KB4505419)	A remote code execution vulnerability exists in Microsoft SQL Server when it incorrectly handles processing of internal functions. An attacker who successfully exploited this vulnerability could execute code in the context of the SQL Server Database Engine service account. To exploit the vulnerability, an authenticated attacker would need to submit a specially crafted query to an affected SQL server. The security update addresses the vulnerability by modifying how the Microsoft SQL Server Database Engine handles the processing of functions.	v4.6,v4.7
07/09/2019	Security Update for SQL Server 2016 Service Pack	A remote code execution vulnerability exists in Microsoft SQL Server when it incorrectly handles processing of internal functions. An attacker who	v4.6,v4.7

	1 CU (KB4505221)	successfully exploited this vulnerability could execute code in the context of the SQL Server Database Engine service account. To exploit the vulnerability, an authenticated attacker would need to submit a specially crafted query to an affected SQL server. The security update addresses the vulnerability by modifying how the Microsoft SQL Server Database Engine handles the processing of functions.	
07/29/2019	SQL Server 2014 Service Pack 2 Cumulative Update (CU) 18 KB4500180	CU18 for SQL Server 2014 Service Pack 2 upgraded all SQL Server 2014 Service Pack 2 instances and components installed through the SQL Server setup. CU18 can upgrade all editions and servicing levels of SQL Server 2014 Service Pack 2 to the CU18 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://www.microsoft.com/en-us/download/details.aspx?id=51187). To learn more about SQL Server 2014 Service Pack 2 CU18, please visit the Microsoft Support (http://support.microsoft.com) Knowledge Base article KB4500180.	v4.6,v4.7
01/14/2020	Microsoft .NET Framework 4.8 for Windows 10 Version 1607 and Windows Server 2016 for x64 (KB4486129)	The Microsoft .NET Framework 4.8 is a highly compatible, in-place update for all the previous versions of .NET Framework 4.X. After you install this update, you may have to restart your computer.	v4.6,v4.7
03/13/2012	Security Update for Microsoft Visual C++ 2010 Service Pack 1 Redistributable Package (KB2565063)	A security issue has been identified leading to MFC application vulnerability in DLL planting due to MFC not specifying the full path to system/localization DLLs. You can protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.6,v4.7
09/08/2020	2020-09 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB4576750)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7

01/12/2021	2021-01 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB4597247)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
01/12/2021	Security Update for SQL Server 2016 Service Pack 2 CU (KB4583461)	Security issues have been identified in the SQL Server 2016 Service Pack 2 CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.6,v4.7
02/09/2021	2021-02 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB4601051)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
02/11/2021	SQL Server 2016 Service Pack 2 Cumulative Update (CU) 16 KB5000645	CU16 for SQL Server 2016 Service Pack 2 upgraded all SQL Server 2016 Service Pack 2 instances and components installed through the SQL Server setup. CU16 can upgrade all editions and servicing levels of SQL Server 2016 Service Pack 2 to the CU16 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/en-us/kb/957826). To learn more about SQL Server 2016 Service Pack 2 CU16, please visit the Microsoft Support (http://support.microsoft.com) Knowledge Base article KB5000645.	v4.6,v4.7
02/13/2021	2021-02 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5001078)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
03/09/2021	2021-01 Update for Windows Server 2016 for x64-based	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge	v4.6,v4.7

	Systems (KB4589210)	Base article for more information. After you install this item, you may have to restart your computer.	
03/29/2021	SQL Server 2016 Service Pack 2 Cumulative Update (CU) 17 KB5001092	CU17 for SQL Server 2016 Service Pack 2 upgraded all SQL Server 2016 Service Pack 2 instances and components installed through the SQL Server setup. CU17 can upgrade all editions and servicing levels of SQL Server 2016 Service Pack 2 to the CU17 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/en-us/kb/957826). To learn more about SQL Server 2016 Service Pack 2 CU17, please visit the Microsoft Support (http://support.microsoft.com) Knowledge Base article KB5001092.	v4.6,v4.7
04/13/2021	2021-04 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5001402)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
05/11/2021	2021-05 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5001841)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
06/08/2021	2021-06 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5003542)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
07/13/2021	2021-07 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5004115)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
08/10/2021	2021-08 Cumulative	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in	v4.6,v4.7

	Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5004752)	this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	
09/14/2021	2021-09 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5005698)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
10/12/2021	2021-10 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5006065)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
11/09/2021	2021-11 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5007152)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
11/22/2021	SQL Server 2016 Service Pack 3 (KB5003279)	Service Pack 3 for SQL Server 2016 upgraded all SQL Server 2016 instances and components installed through the SQL Server setup. Service Pack 3 can upgrade all editions of SQL Server 2016 to Service Pack 3 level. For customers in need of additional installation options, please visit the Microsoft Download Center and download the Service Pack 3 SQL Server 2016. To learn more about SQL Server 2016 SP3 please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB 5003279.	v4.6,v4.7
01/11/2022	2022-01 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5008877)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7

02/08/2022	2022-02 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5010460)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
03/08/2022	2022-03 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5011570)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
04/12/2022	2022-04 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5012118)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
04/12/2022	2022-04 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5012596)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
05/10/2022	2022-05 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5013625)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
05/10/2022	2022-05 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5014026)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
05/10/2022	2022-05 Cumulative Update for Windows Server	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues	v4.6,v4.7

	2016 for x64-based Systems (KB5013952)	that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	
05/19/2022	SQL Server 2016 Service Pack 3 Azure Connect Pack KB5014242	Azure Connect Pack for SQL Server 2016 Service Pack 3 upgraded all SQL Server 2016 Service Pack 3 instances and components installed through the SQL Server setup. Azure Connect Pack can upgrade all editions and servicing levels of SQL Server 2016 Service Pack 3 . For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2016 Service Pack 3 Azure Connect Pack, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5014242.	v4.6,v4.7
06/14/2022	Security Update for SQL Server 2016 Service Pack 3 CU (KB5015371)	Security issues have been identified in the SQL Server 2016 Service Pack 3 CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.6,v4.7
06/14/2022	Security Update for SQL Server 2014 Service Pack 3 CU (KB5014164)	Security issues have been identified in the SQL Server 2014 Service Pack 3 CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.6,v4.7
06/14/2022	2022-06 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5014702)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
07/12/2022	2022-07 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5016058)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7

07/12/2022	2022-07 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5015808)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
08/09/2022	2022-08 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5016622)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
08/09/2022	2022-08 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5017095)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
09/13/2022	2022-09 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5017305)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
09/13/2022	2022-09 Cumulative Update for .NET Framework 4.8 for Windows Server 2016 for x64 (KB5017035)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
09/13/2022	2022-09 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5017396)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
10/11/2022	2022-10 Cumulative Update for Windows Server	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues	v4.6,v4.7

	2016 for x64-based Systems (KB5018411)	that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	
11/08/2022	2022-11 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5019964)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
12/13/2022	2022-12 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5021235)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
01/10/2023	2023-01 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5022289)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
02/14/2023	2023-02 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5022838)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
02/14/2023	Security Update for SQL Server 2016 Service Pack 3 CU (KB5021128)	Security issues have been identified in the SQL Server 2016 Service Pack 3 CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.6,v4.7
03/14/2023	2023-03 Cumulative Update for Windows Server 2016 for x64-	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated	v4.6,v4.7

	based Systems (KB5023697)	Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	
03/14/2023	2023-03 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5023788)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
04/11/2023	2023-04 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5025228)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
05/09/2023	2023-05 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5026363)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
06/13/2023	2023-06 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5027219)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
07/11/2023	2023-07 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5028169)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
08/08/2023	2023-08 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5029242)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7

09/12/2023	2023-09 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5030504)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
09/12/2023	2023-09 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5030213)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
10/10/2023	Security Update for SQL Server 2016 Service Pack 3 CU (KB5029187)	Security issues have been identified in the SQL Server 2016 Service Pack 3 CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.6,v4.7
10/10/2023	2023-10 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5031362)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
11/14/2023	2023-11 Servicing Stack Update for Windows Server 2016 for x64-based Systems (KB5032391)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.6,v4.7
11/14/2023	2023-11 Cumulative Update for Windows Server 2016 for x64-based Systems (KB5032197)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.6,v4.7
