

Summary

The following is a list of the updates that Sensus has tested and approved to operate with our software running on Microsoft Windows Server.

Microsoft Windows Server 2019

Date	Title	Description	RNI Version
01/14/2020	Microsoft .NET Framework 4.8 for Windows 10 Version 1809 and Windows Server 2019 for x64 (KB4486153)	The Microsoft .NET Framework 4.8 is a highly compatible, in-place update for all the previous versions of .NET Framework 4.X. After you install this update, you may have to restart your computer.	v4.8- v4.14
07/14/2020	2020-07 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB4566516)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
08/11/2020	2020-08 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB4570505)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
01/12/2021	Security Update for SQL Server 2019 RTM CU (KB4583459)	Security issues have been identified in the SQL Server 2019 RTM CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.8- v4.14
01/12/2021	2021-01 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB4598499)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8- v4.14

01/12/2021	2021-01 Servicing Stack Update for Windows Server 2019 for x64-based Systems (KB4598480)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8-v4.14
02/09/2021	2021-02 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB4601887)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8-v4.14
02/09/2021	2021-02 Servicing Stack Update for Windows Server 2019 for x64-based Systems (KB4601393)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8-v4.14
02/11/2021	SQL Server 2019 RTM Cumulative Update (CU) 9 KB5000642	CU9 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU9 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU9 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/en-us/kb/957826). To learn more about SQL Server 2019 RTM CU9, please visit the Microsoft Support (http://support.microsoft.com) Knowledge Base article KB5000642.	v4.8-v4.14
02/16/2021	Update for Removal of Adobe Flash Player for Windows Server 2019 for x64-based systems (KB4577586)	This update will remove Adobe Flash Player from your Windows machine. After you install this item, you may have to restart your computer.	v4.8-v4.14
03/09/2021	2021-03 Servicing Stack	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this	v4.8-v4.14

	Update for Windows Server 2019 for x64-based Systems (KB5000859)	update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	
03/09/2021	2021-01 Update for Windows Server 2019 for x64-based Systems (KB4589208)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8- v4.14
04/06/2021	SQL Server 2019 RTM Cumulative Update (CU) 10 KB5001090	CU10 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU10 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU10 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/en-us/kb/957826). To learn more about SQL Server 2019 RTM CU10, please visit the Microsoft Support (http://support.microsoft.com) Knowledge Base article KB5001090.	v4.8- v4.14
04/13/2021	2021-04 Servicing Stack Update for Windows Server 2019 for x64-based Systems (KB5001404)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8- v4.14
05/11/2021	2021-05 Servicing Stack Update for Windows Server 2019 for x64-based Systems (KB5003243)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8- v4.14
05/11/2021	2021-05 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8- v4.14

	2019 for x64 (KB5001879)		
05/11/2021	2021-05 Cumulative Update for Windows Server 2019 for x64-based Systems (KB5003171)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8-v4.14
06/08/2021	2021-06 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5003778)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8-v4.14
06/08/2021	2021-06 Servicing Stack Update for Windows Server 2019 for x64-based Systems (KB5003711)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8-v4.14
06/10/2021	SQL Server 2019 RTM Cumulative Update (CU) 11 KB5003249	CU11 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU11 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU11 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/en-us/kb/957826). To learn more about SQL Server 2019 RTM CU11, please visit the Microsoft Support (http://support.microsoft.com) Knowledge Base article KB5003249.	v4.8-v4.14
07/13/2021	2021-07 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5004228)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8-v4.14

08/05/2021	SQL Server 2019 RTM Cumulative Update (CU) 12 KB5004524	<p>CU12 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU12 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU12 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2019 RTM CU12, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5004524.</p>	v4.8-v4.14
08/10/2021	2021-08 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5004870)	<p>Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.</p>	v4.8-v4.14
08/10/2021	2021-08 Servicing Stack Update for Windows Server 2019 for x64-based Systems (KB5005112)	<p>Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.</p>	v4.8-v4.14
10/05/2021	SQL Server 2019 RTM Cumulative Update (CU) 13 KB5005679	<p>CU13 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU13 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU13 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2019 RTM CU13, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5005679.</p>	v4.8-v4.14
10/12/2021	2021-10 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server	<p>Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.</p>	v4.8-v4.14

	2019 for x64 (KB5006765)		
11/09/2021	2021-11 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5007298)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8- v4.14
11/22/2021	SQL Server 2019 RTM Cumulative Update (CU) 14 KB5007182	CU14 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU14 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU14 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2019 RTM CU14, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5007182.	v4.8- v4.14
01/11/2022	2022-01 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5009718)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
01/27/2022	SQL Server 2019 RTM Cumulative Update (CU) 15 KB5008996	CU15 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU15 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU15 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2019 RTM CU15, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5008996.	v4.8- v4.14
02/08/2022	2022-02 Cumulative	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this	v4.8- v4.14

	Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5010580)	update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	
04/12/2022	2022-04 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5012328)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
04/18/2022	SQL Server 2019 RTM Cumulative Update (CU) 16 KB5011644	CU16 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU16 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU16 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2019 RTM CU16, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5011644.	v4.8- v4.14
05/10/2022	2022-05 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5013868)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
06/14/2022	2022-06 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5014805)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8- v4.14
06/14/2022	Security Update for SQL Server	Security issues have been identified in the SQL Server 2019 RTM CU that could allow an attacker to	v4.8- v4.14

	2019 RTM CU (KB5014353)	compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	
06/14/2022	Security Update for SQL Server 2014 Service Pack 3 CU (KB5014164)	Security issues have been identified in the SQL Server 2014 Service Pack 3 CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.8- v4.14
08/09/2022	2022-08 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5016737)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8- v4.14
08/09/2022	2022-08 Security Update for Windows Server 2019 for x64-based Systems (KB5012170)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
08/11/2022	SQL Server 2019 RTM Cumulative Update (CU) 17 KB5016394	CU17 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU17 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU17 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2019 RTM CU17, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5016394.	v4.8- v4.14
09/13/2022	2022-09 Cumulative Update for Windows Server 2019 for x64-based Systems (KB5017315)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14

09/13/2022	2022-09 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5017528)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8-v4.14
09/28/2022	SQL Server 2019 RTM Cumulative Update (CU) 18 KB5017593	CU18 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU18 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU18 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2019 RTM CU18, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5017593.	v4.8-v4.14
10/11/2022	2022-10 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5018542)	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.8-v4.14
10/11/2022	2022-10 Cumulative Update for Windows Server 2019 for x64-based Systems (KB5018419)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8-v4.14
11/08/2022	2022-11 Cumulative Update for Windows Server 2019 for x64-based Systems (KB5019966)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8-v4.14
11/08/2022	2022-11 Cumulative	A security issue has been identified in a Microsoft software product that could affect your system. You	v4.8-v4.14

	Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5020685)	can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	
12/13/2022	2022-12 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5021085)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
12/13/2022	2022-12 Cumulative Update for Windows Server 2019 for x64-based Systems (KB5021237)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
01/10/2023	2023-01 Cumulative Update for Windows Server 2019 for x64-based Systems (KB5022286)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
02/14/2023	Security Update for SQL Server 2019 RTM CU (KB5021124)	Security issues have been identified in the SQL Server 2019 RTM CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.8- v4.14
02/14/2023	2023-02 Cumulative Update for .NET Framework 3.5, 4.7.2 and 4.8 for Windows Server 2019 for x64 (KB5022782)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
02/14/2023	2023-02 Cumulative	A security issue has been identified in a Microsoft software product that could affect your system. You	v4.8- v4.14

	Update for Windows Server 2019 for x64-based Systems (KB5022840)	can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	
02/16/2023	SQL Server 2019 RTM Cumulative Update (CU) 19 KB5023049	CU19 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU19 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU19 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826). To learn more about SQL Server 2019 RTM CU19, please visit the Microsoft Support (https://support.microsoft.com) Knowledge Base article KB5023049.	v4.8- v4.14
03/14/2023	2023-03 Cumulative Update for Windows Server 2019 for x64-based Systems (KB5023702)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
04/11/2023	2023-04 Cumulative Update for Windows Server 2019 for x64-based Systems (KB5025229)	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.8- v4.14
04/13/2023	SQL Server 2019 RTM Cumulative Update (CU) 20 KB5024276	CU20 for SQL Server 2019 RTM upgraded all SQL Server 2019 RTM instances and components installed through the SQL Server setup. CU20 can upgrade all editions and servicing levels of SQL Server 2019 RTM to the CU20 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update (https://support.microsoft.com/kb/957826).
