

# Preventative Maintenance Agreements For Godwin Pumps and Equipment

ENSURE MAXIMUM EQUIPMENT UPTIME AT THE LOWEST OVERALL COST

We want to help increase the life and efficiency of your equipment. With a preventative maintenance agreement (PMA) from Xylem, you can ensure maximum equipment uptime at a manageable cost.

## What is a PMA?

A preventative maintenance agreement is a service contract tailored to meet your specific needs and requirements. A PMA includes scheduled visits at your convenience that enable our technicians to service your equipment to keep it running smoothly.

## Why Xylem?

Xylem has over 50 years of experience in the pumping industry. Our service vehicles are fully equipped with all the tools, supplies, and parts required to carry out inspections and services.

If a Service Technician encounters a problem that requires specialized support, he or she can make repairs on-site.

## Key benefits

- Control over your maintenance budget
- Equipment status report provided after each inspection
- Priority service on all repairs (both planned and emergency) by authorized Service Technicians
- 24-hour response guarantee for emergencies
- Unlimited telephone support
- Keep your equipment within warranty

## The bottom line

With a PMA from Xylem, you can trust that your equipment is in good hands. The risk of breakdown is minimized and we will work with you to make sure your equipment is performing at maximum efficiency.

### Are your pumps still under warranty?

In order for your warranty to remain valid, maintenance must be done according to the technical specifications in the product manual. It is vital that maintenance and all repair work is done by Xylem-authorized technicians.
