Join us for a **FREE** live webinar to learn about HYPACK® in the cloud.
Collaborate and share data without limits!

[REGISTER HERE!](#)

Join us for a live webinar on November 13, 2024, from 11:00 AM to 11:45 AM (EST), where we'll explore using HYPACK® in the cloud. Learn how HYPACK and Absolute Ocean's integrated workflow offers a comprehensive solution for data collection, processing, and delivery. During the live demo, you'll discover how our tools enable seamless collaboration, management, and visualization of geospatial data. This webinar will showcase how you can streamline operations, enhance efficiency, and make better-informed decisions with our all-in-one solution for data acquisition and management.

A recording of the webinar will be sent to everyone, including the people who register and are unable to attend live.

Webinar Highlights

HYPACK® in the Cloud: Boost Processing Speeds and Gain Real-time Access to Data.

What is new and why

- What are the two ways to use HYPACK® in the cloud
- Benefits of cloud processing and integration of HYPACK® and Absolute Ocean

Live Demo of Tools

- How to access Absolute Ocean data from HYPACK®
- Uploading to Absolute Ocean and sharing data
