

Water Solutions For Beverages

Adding Value To Your Operations

Your Partner For The Entire Water Cycle

Xylem is a leading global water technology company committed to solving critical water and infrastructure challenges with innovation. Our technological strength across the life cycle of water is second-to-none. From collection and distribution to treatment and reuse, our highly efficient water technologies, industrial pumps and application solutions not only use less energy and reduce life-cycle costs, but also promote sustainability.

Ready availability of spare parts

Service and maintenance post installation

Training of operational staff

Solving Water For The Beverage Industry

Water Intake

Pump underground groundwater to water processing tanks

Submersible Borehole Pump

WTW Free and TR Chlorine Analyzer

Vertical Multistage Pump

Municipal Water Supply

HVAC

Supply water to utility and HVAC system

Gasketed Plate Heat Exchanger

Double Suction Centrifugal Pump

Beverage Processing

Disinfect and supply water to process line

Wedeco Aquada UV System

CO Threaded Centrifugal Pump

Ebro Temperature Data Logger

Ebro Validation Data Logger for Pasteurization

Wastewater Management

Treat and transport wastewater

Flygt N-technology Submersible Pump

WTW IQ WQ SensorNet

Sanitaire Diffuser

Water Treatment

Clarification, filtration and disinfection of water

Leopold Underdrain

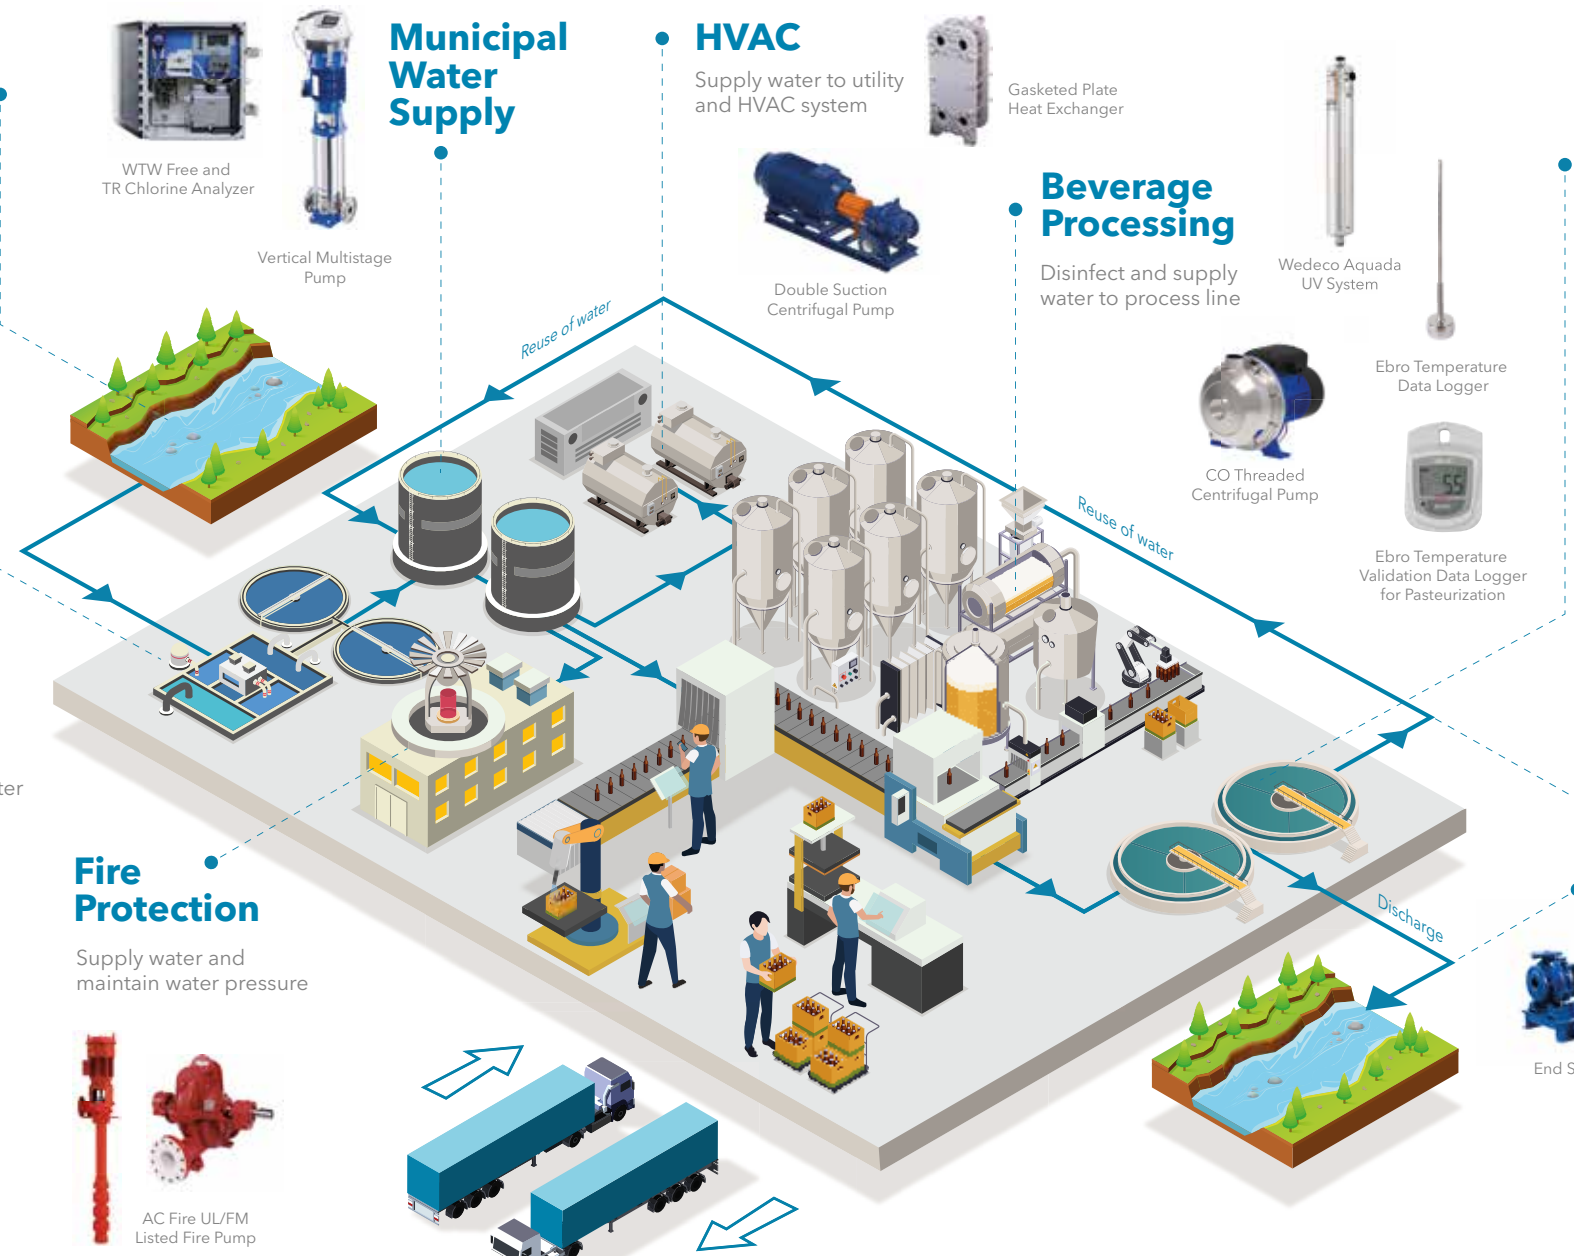

Wedeco UV Spektron

Fire Protection

Supply water and maintain water pressure

AC Fire UL/FM Listed Fire Pump

End Suction Pump
