

Minimize Downtime with IQ Sensor Net Secure Water Quality Monitoring

IMPROVE OPERATIONAL EFFICIENCY WITH CONTINUOUS DATA

The current environment puts a lot of stress on your team, workflow and infrastructure. Break-out teams and shift rotation reduce risk of the spread of the virus among all of us, but also reduce efficiency.

Our service team can be part of yours to keep it running

- Modular IQ Sensor Net sensor network-tailor made to your needs
- Continuous monitoring of all important water quality parameters like D.O. , NH₄, NO₃, NO₂, COD, PO₄, TSS, Turb, Cond, and pH
- Quick installation and set up
- Remote monitoring opportunity with IQ WebConnect
