

We offer complete solutions from a single source. **Next-level rental.**

At Xylem we rent out more than just pumps and treatment systems. We offer world-class expertise to provide you with cost-effective, reliable and innovative full-service solutions for even the most complex applications. Careful preparation makes all the difference: the professional pre-assembly of your rented system by our experts saves you both time and money. Systems and components from Xylem Rental Solutions are always tailor-made to meet your individual requirements.

This makes for increased operational safety and guarantees that the technology always works under optimal conditions. That's what we call **next-level rental**.

**Complete pump systems**

Our submersible wastewater pumps and well pumps are designed for reliable and efficient pumping of clean water to highly abrasive media.

**Ozone oxidation systems**

These turnkey solutions are installed in containers and meet the requirements of a complete ozone oxidation system.

**Self-priming pumps**

Our supply of fully automatic self-priming pumps, diesel or electric driven, in temporary applications.

**Mechanical accessories**

From check valves to water meters and piping, Xylem Rental Solutions has a large inventory of rental equipment and accessories to help you run your projects reliably and safely.

**UV disinfection systems**

Our pre-installed containerised UV systems are versatile, take up very little space and provide reliable disinfection of water for a variety of industrial and municipal applications.

**Monitoring and control solutions**

We offer various service levels, including remote monitoring, surveillance services and temporary data provision for status reports.
